

Dear Valued Partner,

I hope this message finds you well. My name is Hanyu, and I represent **Qingdao Bright Honor Biotechnology Co., Ltd**, a leading innovator in high-efficiency agricultural solutions tailored for global markets.

Innovative NPK Liquid Gel Suspension Foliar Fertilizer

We are thrilled to introduce our cutting-edge fertilizer designed to:

- | Optimize crop health
- | Maximize yields
- | Adapt seamlessly to diverse agricultural needs

Core Advantages

Our unique gel suspension formula ensures:

- |  Superior nutrient adherence & rapid absorption
- |  Prolonged nutrient release
- |  40-60% waste reduction
- |  Sustainable farming compatibility

Standard NPK Formulations

- | **100-500-100**: High phosphorus formula for root development
- | **180-210-210**: Balanced vegetative growth solution
- | **150-200-500**: Potassium-rich fruiting enhancer
- | **400-100-100**: Nitrogen-focused growth booster
- | **200-200-200**: Universal all-stage formula

Customization Services

Our R&D team offers:

- |  Tailored NPK ratio adjustments
- |  Region-specific formulation development
- |  Micronutrient profile optimization
